Subject: Demolish and Reconstruct Firehouse
Redding Fire District 1
186 Black Rock Turnpike

The Redding Health Department has reviewed submitted site plans, septic plans, and floor plans relating to the subject proposal. Due to only unnatural soils being available for the installation of the new septic system, this Department has forwarded the septic plan to the Connecticut Department of Public Health (CT DPH) to assist in reviewing and commenting on the proposal.

At this time the engineer is itemizing the design flow, and has agreed to inspect the existing septic. Once these items are completed the CT DPH will finish its review.
