Extended Day

Covid-19 Protocols 2021-2022 School Year

Utilizing guidance from the anticipated RES 2021-22 Reopening Plan, Town Health Dept. and following the most current Park and Recreation protocols, Extended Day will use the following protocols for both children and staff:

1. Wearing masks at all times WHEN INDOORS except during snack and supervised mask/water breaks.
2. No masks will be required when playing outside.
3. Activities will be conducted outside as much as possible.
4. Frequent hand washing, with soap and water whenever possible; approved hand sanitizer used at other times.
5. Social distancing will be reinforced while inside classrooms, in hallways, the gym and the bathrooms to the extent possible.
6. Sneezing and coughing into tissue or elbow, followed by hand washing will be reinforced.
7. Replacement masks for both children and staff will be provided as needed.
8. Maintaining reasonable social distancing and smaller groups while inside.
9. Regularly sanitizing rooms and equipment that we use, before, after and as needed during program time.
10. Anyone (staff or children) feeling at all sick should stay home or be sent home as soon as possible.
11. Until further notice, no parents may enter the building or the fenced-in playground area. Extended Day children will be escorted to their parents shortly after the parents arrive to pick up.
12. Any known exposure will be reported to the Health Department and will be dealt with on a case-by-case basis. With Health Department guidance, email notification based on the particular circumstances of the exposure will be sent to participants’ parents, Extended Day staff as well as appropriate school and town administrators.
13. Email notification will contain specific information concerning any necessary quarantine, program closure and reopening date.
